

The Beginners Guide to DaVinci Resolve

10am - 3pm GMT | February 14th - 17th 2022

This 4 day step-by-step intensive training will provide you with an in-depth overview of DaVinci Resolve's key disciplines. The training will cover high speed editing on the revolutionary cut page, which is designed for fast turn around work. You'll also learn how to use the traditional edit page for more sophisticated projects, along with DaVinci Resolve's legendary color correction, Fusion VFX and Fairlight audio tools so you can start creating your own Hollywood caliber film and video today!

There are 3 steps to follow

1. Download DaVinci Resolve for FREE from the Blackmagic Design website and install this on your computer.

2. Download the The Beginners Guide to DaVinci Resolve book, and Lesson Files direct from our training page below.

3. Join the Online Training Class 15 minutes before the registered start time using the link provided via the registration process.
